BIG FIELD DAY IN BLAIRMORE JULY 1st

A most enthusiastic meeting of the committee of the Blaimore Amateur Athletic Association was held at the Cosmopolitan hotel last week, when the following officers and committees were elected:

Honorary presidents, G. A. Vissac and Mayor J. H. Farmer. Honorary vice-president, James F. Smith.

President—R. W. H. Pinkney. Vice-President—S. G. Bannan. Secretary-treasurer—A. J. Kelly. Executive—J. A. Ruck, J. V. McDougall, W. J. Fisher, W. H. Chapell, E. Neville, A. Morency, Fred Irwin, D. Oliver and Robert Gray.

Finance committee—R. W. H. Pinkney and J. V. McDougall. Publicity and programme committee—Robert Gray, A. Morency, J. A. Rudd, W. H. Chapell and P. C. Montabetti.

The secretary was instructed to apply to the Alberta branch of the Amateur Athletic Association for official sanction for the sports. As a result of this meeting a real sports day is in store for Blaimore on Tuesday, July 1st, the principal feature of which will be the five-mile marathon for the Pinkney cup. Runners from all parts of the province will be entitled to run in this event, provided their entry is made prior to June the 29th. Other athletic events will include baseball, bicycle race, general races, jumps, etc.

We understand that the West Canadian Collieries band will be in attendance throughout the day and that a grand dance at the arena at night will wind up the programme.

GEORGE E. CRUCKSHANK INDEPENDENT CANDIDATE

As we go to press, we learn that Mr. George E. Cruckshank, well known business man of Hillcrest, has decided to accept nomination as an independent candidate to contest the Rocky Mountain constituency in the forthcoming provincial election.

Mr. Cruckshank is very favorably known throughout the entire constituency, and will be assured of the support of both Liberals and Conservatives as well as draw'ing considerable from the ranks of Labor.

DEATH OF ROBT. M. McDOWALL

The community of Mountain Mill and Beaver Mines and many friends in Pincher Creek were grieved to learn of the death of Robert Malcolm McDowall, sixth son of Mr. and Mrs. W. D. McDowall, which occurred in California on the morning of Wednesday, May 21st, following complications from an operation which he underwent about two years ago.

Mr. McDowall was twenty-five years of age and has for some time resided in the south. His mother, Mrs. McDowall, left on Wednesday of last week to go to him, but word has been received that he had passed away that morning.

Deepest sympathy is extended to Mr. and Mrs. McDowall and their family in their sorrow.—Pincher Creek Echo.

GUESSING CONTEST RE AGE OF TREE SUCCESSFUL

In our last issue we announced a guessing contest being carried on in the schools of the district in the interest of forest protection and education. The results of that contest were most successful, as the following will show. The prizes, totaling in value around fifty dollars, were put up by the following: James Cardie, Mohawk Btimiroos Mines; W. Stevenson, Hillcrest Collieries; G. A. Vissac, West Canadian Collieries; A. Greig, McLaren Lumber Company; G. Kellogg, McGillivray Creek Coal & Coke Company, and O. E. S. White-side, International Coal & Coke Company.

The schools entering the competition were Bellevue and Maple Leaf, Hillcrest, Frank, Blaimore West and Central, and Coler and West and Central.

Followers are the results: Maple Leaf, W. N. Zumwalt, principal—117 guesses, average 272, 1st Joe Leebach and Ello Basso, 240; 2nd Jean Youngberg, 233.

Hillcrest, Wm. Brashett, principal—254 guesses, average 244, 1st Robert Grubb, 237; 2nd Joe Evans and John S. Barrett, 235.

Bellevue, J. H. McLean, principal—226 guesses, average 187.6, 1st Ruby Cousens, 237; 2nd Jean Picard and Bawn McLean, 238.

Frank, William Drake, principal—61 guesses, average 301.7, 1st Madge Delna Cerney, Veronica Osadan Annie Vysohla, Beth Murray and Yarnold Rudick, 235.

Blaimore Central and Ward, Donald McPherson, principal—308 guesses, average 258, 1st Gladys Morgan 237, 2nd Sidney Griesbach, Vernon Decoux and Catherine McVey, 236 and 238.

Coleman West, Annie Yuell, principal—117 guesses, average 238, 1st Edna Morris and Marie Ondrus 238, 2nd Alfred Moore 240, 3rd Margaret Low and Reta Johnson 232.

Coleman Central, David Hoyle, principal—420 guesses, average 221, four first correct, Henry Evans, Marjorie Johnson, Emily Ryfeln and Mahle Snod, 237.

The dimensions of the tree trunk submitted in the chart were: length 28 feet, 10 inches in diameter at sixteen feet from the ground and 17 inches at twenty-eight feet. The correct age was 237.

PRESIDENT HOOVER MAY VISIT ALBERTA'S PARKS

LETHBRIDGE, May 28.—President Herbert Hoover may be a visitor to Canada this summer. There is a well defined rumor here that the president will cross the border into Alberta during his visit to Glacier National Park, spending some time at Southern Alberta's mountain playground, Waterton Lakes National Park, which adjoins Glacier.

Plans for Mr. Hoover's western tour are not definitely determined, but it is known that he will include Glacier Park in his itinerary and now comes word, considered well founded, that he will pay a friendly visit to this country.

If this plan materializes, the event will be of historical interest, for it will mark the second instance only where a president of the United States has visited Canada during his term of office. President Harding establishing the precedent when he visited Vancouver, B.C., just prior to his death.

REAL ARBOR DAY WORK BY NEWFOUNDLAND SCHOOL

May the 16th was observed as Arbor Day by the Deer Lake public school in Newfoundland, when the pupils, after hearing a lecture on forestry by their principal, armed themselves with shovels, etc., and planted several thousands of young spruce and red pine. The trees were supplied by the woods department of the International Power & Paper Company. Last year upwards of six thousand trees were planted by the children of the same school.

HOW CUTWORMS CAN BE ELIMINATED

H. L. Seamans, government entomologist, has prepared the following formula for a five-pound quantity of cutworm bait. A greater or less quantity can be prepared, but it is advisable to mix only sufficient for immediate requirements: 5 lbs. bran, 2 ounces paris green, 1/2 cup molasses. Mix paris green into bran; mix molasses in about pint of water, then mix the whole thoroughly, adding more water if necessary to make mash wet but not slopping.

The evening is the best time to apply, spreading on ground among plants. Do not water for at least 24 hours.

EXAMINATIONS CONCLUDE TODAY

Examinations under the Mines Act for mine surveyors, mine managers or first class, and pit bosses' or second class certificates have been in progress here for the past three days, under Messrs. L. P. Robert, Enoch Williams and Moses Johnson as examiners.

Following are the candidates: For mine surveyor, Thomas E. Morgan. For first class or mine manager, Luke Lindoe, James Kellock, William J. Hibbert and Evan H. Morgan, Coleman; J. W. Whitehead, Blairmore; Marc Plard, Bellevue; E. Rolfe, Hillcrest. For second class or pit boss, Frank M. Wheatley, Banff; C. P. McDonald, Leslie McDonald, S. R. Sutherland, W. B. Rhodes, Bellevue; R. Tonge, A. Womersley, Blairmore.

Mrs. Miriam Frankish, died at Pincher Creek on Saturday, aged 71. Mrs. C. Lynch-Staunton, daughter, and John A. and George R. Frankish, sons, survive, all residing in the Pincher district.

OFFICERS OF CROWS' NEST PASS MUSICAL FESTIVAL

At the annual meeting of the Crows' Nest Pass Musical Festival, held at the Greenhill hotel on March 21st, the officers for the year 1936-37 were elected as follows:
Honorary President—Rev. W. T. Oung, Calgary.
Honorary Vice-President—Mrs. D. J. Mackenzie, Calgary.
President—L. L. Morgan, Blairmore.

Vice-President—J. E. Upton, Blairmore.
Secretary—Treasurer—Frank J. Smith, Hillcrest.

General Committee—Macleod, J. W. McDonald, K.C., Mrs. J. W. McDonald; Pincher Creek, R. O. Allison, H. Moller-Langdale, Mrs. Johnston, Mrs. A. L. Freck, Mrs. E. S. Huast, Sister Albert; Cowley, Mr. C. J. Budy; Bellevue, Wm. K. Watts Goodwin, Rev. Father Donovan, Rev. Mr. Wood; Hillcrest, Dr. Rose, Thomas Boyman, Gweryd Evans, W. H. Moser, Edward Edwards, George E. Cruickshank; Blairmore, Misses Chardon and McKill, Mesdames Morgan, Steeves, Farmer and Bannan, Robert Gray, Rev. J. W. Smith, W. H. Chappell, M. H. Cogdon and Arthur Hadwell; Coleman, Robert Evans, John C. Cox, George Pattinson, J. H. Fulton, H. T. Holliwell and Mrs. or Mrs. Clifford; Ferrie, Miss Isobel Dickson, Mr. W. B. Dickson, Mrs. Broley and Miss Podbielancik; Natal-Michel, Miss Armstrong and Messrs John Dunn and Alex. Almond; Corbin, Walter Almond.

Executive Committee—Misses Chardon and McKill, Mesdames Farmer and Morgan, Messrs. Moser, Chappell and Dr. Rose.

Finance Committee—J. E. Upton (chairman), Blairmore; Robert Gray, Blairmore; George Pattinson, Coleman; G. E. Cruickshank, Hillcrest and William Kerr, Bellevue.

We know of a rabbit that travelled from the Gap of the North Fork river to Wilson Creek on the Elk River, a distance of seventy miles, in three hours—and was then fit to eat and was eaten. To complete matters, that rabbit's carcass was found to contain a big Canadian nickel, and it was saved!

CARNIVAL

By arrangement, Kapel All Canadian Shows, Ltd., will be paying their annual visit to Blairmore on June 23, 24 and 25 this year. The advance manager Mr. C. Pegram, informs us that Kapel has a very fine show this season. Many new attractions have been added, including a Mammoth Ferris Wheel. New novelties and thrilling acts, interesting concessions, all tending to cater to the people's amusement. All shows and concessions are conducted in a clean and moral manner, operated by courteous attendants. Nothing but praise was met last season, for the clean way in which the Carnival was conducted, and invitations from all parts to attend again this year.

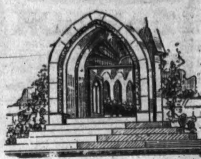

Make a note of the dates, folks, plenty of fun and amusement in a nice clean way. June 23, 24 and 25.

Silver

Its purchase is made easy by our superb collection that embraces the finest in original designs, exquisite workmanship in solid or plated ware.

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you

Services, Sunday, June the 8th, the pastor in charge.

—1936 A.D.
The 190th Anniversary of Pentecost 11 a.m.—SENIOR SCHOOL, for young people over 12.
2 p.m.—JUNIOR SCHOOL, for children under 12.
7.30 p.m.—PUBLIC WORSHIP.

The pastor has returned from conference and will conduct the services on Sunday. The subject will be, "Each must find his own Pentecost." Pentecost means power and joy in Christian life. It is the Father's good pleasure that you share the "abundant life" with Christ. Special music will be given, including solo, "Rock of Ages," by Mr. Neville.

In the near future we are to have a visit from two of the outstanding men of the church. Rev. Theophilus D.D., who is well known and liked in the Pass, will be with us on a date to be announced later. Rev. Charles Endicott, D.D., brother of the ex-Moderator of the General Assembly and one of the most famous speakers in the United Church, will preach in Blairmore, Sunday, June 29th, at 7.30 p.m.

Vacation school will be held each in July this year. Watch for announcements. No trouble is being spared to make this the biggest and best vacation school we have yet held.

In the absence of the pastor, a unique service was held in the United church last Sunday. The order of service, which was arranged by the pastor, was carried out by the Junior Choir, under the direction of Mrs. Bannan. The earnest sincerity of the girls made a deep impression on the congregation and reflected great credit upon their leader. The service: call to worship and Doxology; Betty Greig; invocation; hymn 541; Beth Murray; anthem 102, "The Gallilean"; hymn 538; Beth Murray; scripture psalm 96, Margaret Patterson; solo, Marian McDonald, "In the Garden"; anthem 54; prayer, Alice Hamilton; hymn 519, Beth Murray; offering; We give thee etc; solo, Tina McVey, "Gallila"; scripture, Margaret Patterson; anthem 120; story, Jean Greig, "The Man of Sorrows"; solo, Leila Johnston, "Master I Will Follow Thee"; hymn 494, Beth Murray; benediction, and vesper. Music was rendered by the Upton orchestra, comprising, Mr. Upton, Roy Upton, Jean Upton, Sandy Ferguson and Cecil Johnston, with Mrs. J. W. Smith at the organ.

SUNDAY SPORT

This is the season when all active youths turn their attention to healthful sports and athletic competitions. The urge to be on "the move" is apparently irresistible. Even older, staid folk respond to the pings of Pan and on fine days—mostly Sundays—find themselves among the motley crew who "just had to go out somewhere." And this is as it should be. Perhaps there is no other day than Sunday when one can really find the complete sense of satisfaction derived from calm contemplation of the beauties of nature, the song of the birds, the hush of the countryside. It is then, it seems, the peace and calm of the Eternal Spirit broods over all, soothing poignant memories, calming troubled hearts, healing broken, wounded souls. Rich indeed is he who can draw from the well-springs of nature the abundant blessings of spiritual rejuvenation, and thrice blessed he who can find peace and contentment in the midst of nature's modern tendency to continue the hustle and bustle of commercial life into the Sabbath. The pursuit of pleasure goes on unabated, unchecked. We richly deserve the severe indictment of India's philosopher, Rishabh Tagore, who visited these shores last year. We are emotionally geared too high and burn the flames of life too bright. Lunacy and suicidal mania is increasing in numbers and intensity. We need to be saved from ourselves.

A step in the right direction is the observance of Sunday as a holy day. Far be it from us to desire the return of the days of melancholy puritanism, or of the mid-Victorian era with its uncomfortable horse-hair sofas and prudish notions. We strongly believe in the wholesome smiles and the spontaneous laughter of children and lighthearted people, and find no sin in being supremely happy. For to be happy is to be good. No normal being doing an evil deed can be happy. The small still voice of conscience whispers to the erring one and laughter is denied whilst it speaks. But happiness can be found otherwise than in mad gallivanting hither and thither, or in shattering the calm of the countryside with raucous shouts of encouragement to baseball players on Sundays. There is a definite relation between spiritual and material well-being. A godless people cannot prosper. Let us walk closer with God and leave the harvest in His hands.—The Hanna Herald.

OFFER SUPPORT TO INDEPENDENT

A big rally of Conservatives was held here on Friday night last, for the purpose of reorganization and consideration of possible material to contest the Rocky Mountain constituency in the forthcoming provincial election.

Election of officers resulted as follows: honorary president, R. B. Bennett; hon. vice-president, John Kerr, Passburg; vice-presidents, William Burns, Coleman, E. C. Costick, Bellevue, William Warren, Banff, A. A. Colbrook, Cannore; secretary, S. G. Hannan, Blairmore.

At the close of this meeting, an open session was held, when a motion was unanimously passed, offering to support George E. Cruickshank, of Hillcrest, as an independent candidate for the election.

It is said that Mr. Cruickshank has stated his willingness to accept the nomination, and that he will be assured of similar support from the Liberals.

Other candidates mentioned are: Joseph Stobbs, Labor, and R. Sudworth, Communist.

In the action of John Stanhope, of Bull River, against the East Kootenay Power Company, for damages resulting from injuries sustained when his fishing pole came into contact with a high tension power line as he was walking across the right-of-way on his way fishing with two companions last summer, a verdict was given in his favor for \$12,000.

DOMINION ELECTION JULY 28

With the dissolution of the sixteenth parliament at Ottawa on Friday night, announcement was made that election day would be July 28 and that nomination day would come on July 21st, one week before the election goes to the polls.

Following is the text of His Excellency's speech delivered at the time of dissolution:

Honorable Members of the Senate, Members of the House of Commons:

In bringing the present session to a close I desire to congratulate you upon the expedition with which parliament has conducted its proceedings, and upon the extent and importance of the legislative enactments of the session. Matters which have been the subject of long-standing controversy have been successfully adjusted. In several other directions, legislation of far-reaching significance has been enacted.

It is a source of particular satisfaction that the public accounts of the fiscal year recently ended again disclose a large surplus, and that it has again been possible to effect further material reductions in taxation, as well as a further reduction in the national debt.

Especially gratifying is the fact that in continuance of the policy of endeavoring to remove all substantial difficulties in the relations between the Dominion and the provinces, a settlement of the long-standing controversies respecting the natural resources of the provinces of Manitoba, Saskatchewan and Alberta has been effected. The several agreements have received your approval, as well as the approval of the provincial legislatures. Approval has also been given to the agreement reached with the province of British Columbia concerning the restoration to the province of the lands comprising what is known as the railway belt and Peace River block.

The recommendations of the royal commission on Maritime claims have been further implemented by legislation which has been enacted with respect to the coal and iron and steel industries.

Extensive and comprehensive revisions have been made in the customs tariff with a view to bringing certain schedules more into line with modern business requirements and existing economic conditions. Material and broad extensions have been made in the British preferential tariff schedules, as well as other adjustments which, it is believed, will serve to promote co-operation with the British empire and with other countries.

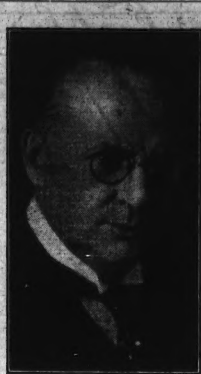

If a dollar won't do as much for you as it used to, it's only because you won't do as much for the dollar.

Mr. and Mrs. Frank Wheatley, junior, are spending a few days in town, returning to Calgary and Banff tomorrow.

Thomas Clark, who with Mrs. Clark came to Blairmore from Vancouver last week to attend the funeral of the latter's brother, Edward Ennis, returned to the coast by Friday's train. Mrs. Clark and her sister, Miss Marion Ennis, are remaining here for a few weeks.

The stationing committee of the United Church in conference in Edmonton approved of the following transfers: Rev. H. J. Bevan, Coleman to Champion, Rev. G. H. Villett, Pincher Creek to McDougall, Edmonton; Rev. A. E. Larke to Coleman; N. H. Whitmore to Pincher Creek.

Baseball has been regarded as an exclusively American game and the national sport of the United States, but it looks as if Japan could lay claim to calling it its national sport, when 220,000 fans will turn out to witness a three-game series for the secondary school baseball championship of the flowery kingdom. And the number would have been even larger, but for the fact that the first game was played in a drizzling rain and drew only 40,000 spectators.

HON. R. B. BENNETT

Leader of the Conservative party in the House of Commons, who will speak in Calgary on June the 17th.

TO SHORTEN CROW ROUTE TO COAST 200 MILES

Motorists and good roads advocates in Alberta will be delighted to learn that the B.C. government has decided to start at once on the building of the road from Hope to Princeton, B.C., which means that the distance from Lethbridge to Vancouver via the Trans-Canada Red Trail, will be reduced by nearly 200 miles. The Vancouver Province this week carried a story to this effect.

In other words, the southern route to the coast via the Crow's Nest Pass will be the Red Trail "Short Line" to Vancouver from the prairie and should attract more and more tourists as the route develops.

Saskatchewan is now embarking on an important Red Trail travelling program to link up the Alberta section of the Trans-Canada road.

MAKE BLAIRMORE SPORT CENTRE

Plans are being arranged, whereby Blairmore will have the largest and best athletic grounds between Medicine Hat and Nelson.

According to the plans already suggested, the present athletic grounds near the arena will be acquired, graded and enclosed in a high board fence, to be properly cared for and utilized in the development of sport in this district.

With modern athletic grounds, it is hoped to be able to introduce competition with teams from as far east as Regina and west as Spokane.

Mother: (To small daughter doing too well at Christmas dinner): "Remember, Barbara, there is plum pudding coming."

Barbara (seriously): "Yes, I know, I'm saving my neck for that!"

SUBVENTION ON COAL GRANTED

OTTAWA, May 31.—Hon. Charles Stewart, just before the house dissolved, announced a subvention on bituminous and sub-bituminous coal of Alberta and British Columbia in the Manitoba market of \$1 per ton, to be effective at all "competitive points." The department estimates this will affect an area including Winnipeg, at present using 235,000 tons of U.S. coal. G. G. Coote, M.P., expressed the view last night that he would be satisfied if 150,000 tons of western coal replaced U.S. imports at first, but ultimately capturing the whole Manitoba market.

Announcement on Friday night by Hon. Charles Stewart, minister of the interior, of a subvention of one dollar per ton on bituminous and sub-bituminous coal from the west eastward to the Manitoba market was hailed in the Crow's Nest Pass with considerable satisfaction. It has been urged for many months as a relief measure to the thousands of miners in the Pass and Eastern British Columbia, who have been suffering through serious unemployment due to a steady falling off in the coal business. While there is not likely to be any very large movements of coal immediately as a result of the subvention, simply because several heavy orders for American coal have already been placed by Winnipeg firms, the ultimate result is bound to be most beneficial to the steam coal industry.

THE ABERDONIAN'S MITE

A street collection made by the Aberdeen students for hospitals recently, realized \$1,600. Among the contributions were: 600 foreign coins, over 200 rusty washers, 24 buttons, 17 car tokens, nails and safety pins.

The Michel school might some day become a real museum, if it continues to receive relics. The most recent addition to the collection was an old blunderbuss found by Silvio Crist, resembling those used in the year 1600. It was found three miles south of Michel and is a flat piece of stone about ten inches long, believed to have been used by the Indians for flinging up the One Mile Creek, dating back to 1664. They have also petrified wood and slabs of stones with drawings of leaves on them that give good historical dates.

This happened at the forthcoming Shriner's convention:

Irishman: "What are those fellows marching there, Mike?"

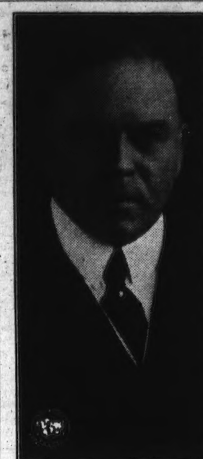

Fellow Irishman: "They're Shriners."

"And what are Shriners?"

"Why, they're Masons."

"Sure, and what are they parading for now? They're gettin' \$18 a day!"

HIGH MOTOR PRICE ALBERTA RANKS THIRD

According to figures presented by the Calgary Herald, Alberta stands third highest amongst Canadian provinces in revenue from motor traffic, being exceeded only by Ontario and Quebec. In rate of revenue per car, Alberta stands second with \$43.75, with Quebec province \$49.60. Manitoba is least costly of any province for the motorist, averaging only \$23.00 tax revenue. The total Alberta revenue from motor cars reaches \$4,360,082 for 1929.

The Calgary Herald says further, that in spite of the high cost of motoring, Alberta is the most backward in its road policy, and it would be much more satisfactory if the motor revenue were used definitely and exclusively for roads.—Ex.

NAUGHTY! NAUGHTY!

The Vegreville Observer shakes a reproving finger at Premier Brownlee for holding a mass meeting in a northern district on a Sunday. He says that although the best authorities claim these were not political meetings, yet public mass meetings for any purpose save the religious, are surprising, if not quite horrifying.

Using the soundest possible basis of reproach, the Vegreville editor, refers the premier to the Book of Exodus, Chapter 20, verses 8 to 11, including.

Now in dear old England there is something dignified about an election. A man merely "stands," while in this country he has to "run" like a jack rabbit to get anywhere.

Here and There

"I think that the increase in unemployment has stopped in the United States and that by the time the Fall comes around, things will be much better," declared Professor Leo Wolman, of Boston, interviewed aboard S.S. Empress of Australia, on his way to the International Wage Conference at Geneva. "The worst has passed," he added, "and things are looking brighter again."

Canada's new championship golf course, the Royal York of Toronto, was opened officially May 19, in the presence of a distinguished gathering of golfers and Canadian Pacific and civic officials. George B. Lyon, Grand Old Man of Canadian golf, drove the first ball, and later in the day, the clubhouse was honored by the inspection visit of His Excellencies, Lord and Lady Willington. The course is in connection with the Royal York Hotel and will be at the disposal of guests.

W. R. MacInnes, vice-president in charge of traffic, Canadian Pacific Railway, since 1915, and after 45 years' service with the company, retires May 31 at his own request, and will be succeeded by George Stephen, at present freight traffic manager. In announcing the change, E. W. Best, chief clerk and president of the railway, said:—"Mr. MacInnes has been in the company's service for forty-five years and has discharged his exacting duties as freight traffic manager and as vice-president in charge of traffic with conspicuous ability and loyalty to the company's interests. By his retirement the company loses one of its ablest and most respected officers."

More than four hundred varieties of apples have been originated in the Canadian Government's Experimental Farm at Ottawa within the last 35 years. As thousands of seedlings have fruited, the apples have been tested, and the best of them named and perpetuated for future production.

Five years ago the total output of petroleum in Alberta was 168,445 barrels; last year it rose to 399,152 barrels, of which \$81,231 barrels came from the Turner Valley, the comparatively new field about 35 miles south-west of Calgary.

Contracts for 65 miles of extensions to the Northern Alberta Railway which run north of Edmonton through the Peace River district, have been let. The extensions are to cost \$2,350,000.

Canada exports more manufactured goods per head of the population than any other country in the world. Last year Canada exported \$64,890,000; Great Britain, \$55,800,000; Germany, \$22,580,000; France, \$20,520,000; and the United States, \$15,130,000. It takes the exports of the United States, plus \$15,000,000, plus \$5,950,000 to equal the exports of one Canadian.

The demand for quarter sections each of 160 acres, of free homestead lands in the Canadian Government to settlers, continues to increase. In the first three months of this year there were 2584 entries registered representing 410,340 acres, as compared with 1466 entries, representing 164,800 acres in the corresponding months of last year.

"In the ballroom, I should be sorry to see the short skirt entirely disappear," said a friend.

"Yes, it would be embarrassing," was the reply.

"This is enough to try the patience of Job," exclaimed the w-er to his wife, after reading the newspaper. "Last Sunday I preached from the text: 'Be ye therefore steadfast, and the printers have made it read: 'Be ye there for breakfast!'"

Last year, Fernie's swimming pool was operated at a loss of \$103.

The Alternatt Orchestra is playing at Coleman Saturday night, June 7, in Italian Hall.

British Columbia roses are being planted in the gardens of the British Legation at Peiping.

King George celebrated his sixty-fifth birthday on June 3rd. So did Rene Steiner.

Misses Bessie and Nina Passmore returned from Cranbrook with their parents on Monday.

"Say, mamma, was baby sent down from heaven?"

"Why, yes, dear."

"Um, they like to have it quiet up there, don't they?"

On his first official visit to Innisfail as Liberal leader, Mr. J. W. McDonald was given a right royal reception and at a mass meeting of citizens was presented with a beautiful gold-mounted pencil, suitably engraved.

Newspapermen go to London

Newspapermen representing all sections of the Dominion are here seen grouped aboard Canadian Pacific liner Duchess of Athol. They sailed recently from Montreal on their way to attend the Winnipeg Press Conference to be held in London in June.

The "cut shows" centre, seated, Hugh Savage, president of Canadian Weekly Newspaper Association; left, same row, O. Maynard, editor, Montreal La Presse; fourth row, extreme right, E. Roy Sawyer, secretary, Canadian Weekly Newspaper Association; second row, seated, centre, John W. Dufour, managing editor, Manitoba Free Press; third row from left, third row, standing, C. A. C. Jennings, editor,

in-chief, Toronto Mail and Empire; sixth from right, third row, standing, J. F. B. Livesey, general manager, Canadian Press, Limited. Others included in the photograph are Senator and Mrs. Buchanan, Winnipeg; Mr. and Mrs. J. C. Puddeke, Mr. and Mrs. Victor Sifton, Miss Henriette Hale, Mr. and Mrs. E. Norman Smith, Ottawa; Mr. and Mrs. Rupert Davies, Kingston; Major H. B. Burgoyne, St. Catharines; B. C. Nicholas, Mr. and Mrs. W. H. Harder, H. P. Dochowin, K.C., and Mrs. Dochowin, W. D. Craik and Miss Craik, Toronto, honorary secretary, Canadian section, Empire Press Union; Miss Dufour, Mr. and Mrs. Peterson, and J. Harry Smith and Mrs. Smith, Montreal.

Uniform Codes For Pilots

Necessary For Aviators Flying Over Border Between Canada and United States

Aviators flying over the Canadian border from either side, will be assured of uniform signal codes, in the near future.

Officials of both countries conferred at Washington, recently, for the purpose of providing the basis for a working agreement under which aircraft crossing the border will be assured that the same system of communication of direction-aided signals on one side as on the other. What is being sought, it is explained, may be considered a uniform code of traffic rules for the air, such as is being worked out for automobiles.

The airways of the United States and Canada are rapidly being linked up, and there is already considerable routine flying from the United States into Canada and return. In order to secure a maximum of safety in these flights, it is essential that the system of communication and radio aids to air navigation used on the Canadian airways be co-ordinated with those used on the United States routes that lead across the border.

How They Saw It

Two elderly ladies arrived in the New York Grand Central Terminal the other evening and caught sight of the airplane Brenon up on the balcony. This was apparently their first view of an airplane at close range. They studied it for a while in awed silence, then one of them spoke, in the accents of discovery. "It's built on the plan of a bird," she said.

Fond Father: "The man who marries my daughter, air, wins a prize."

Guest: "My word, that is a novel idea! Is it a money prize or just a silver cup?"

New Use For Wheat
Light Crop Can Be Made Profitable By Feeding To Poultry

With the present uncertainty which prevails in the wheat market the Dominion Department of Agriculture finds that farmers are paying more attention to the marketing of grain crops through live stock. Some important and interesting results have come to light, and not the least interesting is the experience of an Alberta farmer who had a light crop which he could not sell at the elevator. He had a flock of poultry and started feeding the wheat to them and marketing it in the form of eggs through the local egg pool. When the winter was over he figured up his costs and found that he had sold the wheat thus fed at an average price of \$5 per bushel. Another western farmer with a modest flock of 150 birds kept his family throughout the winter on the income from the eggs, and he states that his gross income for the winter from the flock averaged \$200 per month.

Good Revenue From Map Sale

One hundred and fifty-one maps of Canada have been made by the topographical survey since 1917, according to House of Commons recently, and the cost of compiling these maps was \$900,000. The largest area surveyed was in Manitoba, where 98,247 square miles have been surveyed. The revenue derived from the sale of these maps since 1924 amounts to \$16,500.

Preference From Bermuda

A preference to Canada on agricultural produce and on fish has been granted by Bermuda, according to a telegram received by the prime minister from the Hon. R. Black, Speaker of the Legislative Assembly of Bermuda.

Plan To Encourage

Community Progress

Canadian National Railway Will Give Prizes For Competition

Plans which seek to provide a substantial contribution to the encouragement of community progress and development, and the attainment of the fullest possible measure of Canadian citizenship by those rural communities in Western Canada which are of European origin, have been developed by the Canadian railways according to an announcement just made by Sir Henry Thornton from the head offices of the railway company at Montreal.

These plans initiated and developed by Dr. W. J. Black, director of the Departments of Agriculture and Colonization, of the National System, involve the carrying out of a series of competitions among such communities in the three provinces, Alberta, Saskatchewan and Manitoba, to be held annually for a period of five years, for which one set of three prizes will be awarded in each province each year. These prizes will be substantial, the first being \$1,000, the second \$500, and the third \$250, and they will be awarded on the understanding that the money be utilized in community work of some progressive nature. It is planned to have the competitions commence this year.

The Departments of Agriculture and Colonization, of the National Railways, will assume the responsibility of conducting the competitions, and hearty co-operation and support in the carrying out of the entire scheme has been offered by various departments of the provincial governments which have chiefly to do with matters of rural community progress and welfare. Leading men and women in western life also indicated that the project has their support and approval. For the judging of the competitions in each province, a committee of three outstanding citizens will be selected.

It is proposed to confine the competitions to rural municipalities, or groups of school districts within municipalities in which the population is made up of people of continental European origin, first or second generation. It is recognized that the interest which these people take in co-operating to make effective the policies of such departments of government as have to do with agriculture, education and public health, may be regarded as an index of the people to the advantages of what the Dominion provinces towards influencing their status as good citizens. It has, therefore, been decided that emphasis shall be placed upon the things which these departments regard as of greatest importance. Consideration will be given to such matters as percentage of school attendance, efficiency of the school, percentage of young people attending secondary schools, colleges or universities, evidence of interest in matters relating to public health, social welfare, percentage of membership in farmers' organizations, such as the co-operative marketing pools, agricultural societies, women's institutes, etc., and evidence of general progress towards improvement of agriculture methods, throughout the particular community or area involved. Special consideration also will be given to evidence of community interest in music, arts and handicrafts. In respect to all this, the competitions will take into consideration the full calendar year and awards will be made at the end of each year. In discussing the project, Sir Black said: "It is given to us that the people in a great many of the communities of European origin in the prairie provinces of Canada, have been showing an exceedingly fine interest in making full use of the facilities and influences which our Canadian institutions provide in agriculture, education and otherwise. It is the desire of the railway company, in undertaking to direct these competitions for a period of five years, to give encouragement to such communities as are showing a determination to make use of and emphasize to the fullest extent the best that our country provides in the development of citizenship."

London's Privilege

A privilege which belongs to the City of London is that its maces and its swords may be carried upright. This privilege was granted to the city in 1334, and where other corporations slope their maces and their swords, the City maces may be carried upright, and the City swords generally are so borne, in the same way as the State sword is borne before the King, as an emblem of sovereignty.

Rains in London were so heavy this winter that some wood pavement streets were impassable for several days.

City Man: "My tailor will be here in half an hour."

Office Boy: "Yes sir. Shall I ask him to wait?"

City Man: "Certainly not! What do you suppose I'm going out for?"

DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a belching, from sour and acid stomach? Many believe they have heart trouble and tremble with fear, expecting any minute to drop dead. This condition can be prevented, likewise relieved. Take Carter's Little Liver Pills after meals and neutralize the gases. Sweeten the sour and acid stomach, relieve the gas and encourage digestion. The stomach, liver and bowels will be cleaned of poison, painful and dangerous indigestion disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for a 25¢ package of Carter's Little Liver Pills.

Recipes For This Week

(By Betty Barclay)

TOMATO RELISH

3 cups (1½ lbs.) cooked tomatoes and lemon.
6¼ cups (2½ lbs.) sugar.
1 bottle pectin.

Scald, peel, and crush tomatoes. Boil 4 cups crushed tomatoes (fresh or canned) 10 minutes, uncovered, stirring occasionally. Add juice and grated rind of 1 lemon. Measure cooked mixture into large kettle. Add sugar, mix, and bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 2 minutes. Remove from fire and stir in pectin. Skim; pour quickly. Cover hot relish with film of hot paraffin; when relish is cold, cover with ¼ inch of hot paraffin. Roll glass to spread paraffin on sides. Set very slowly. Requires about 2½ pints of tomatoes. Makes about 8 eight-ounce glasses.

For plain tomato flavor, omit lemon and use only 2½ cups boiled-down tomatoes. For use with meats, add ¼ teaspoon of ground allspice, cloves and cinnamon.

ROLLED ORANGE WAFERS

½ cup butter.
1 cup sugar.
Grated rind 1 orange.
1 teaspoon soda.
1 tablespoon cold water.
½ cup orange juice.
2 cups flour.

Cream butter; gradually add sugar and orange rind, beating until light; dissolve soda in cold water, add to orange juice, then add, alternately with flour, to first mixture. Spread mixture on well-buttered sheet in the thinnest possible layer, and bake in a moderate oven. When done, cut in squares; quickly roll each square, while hot, over handle of a wooden spoon, and arrange on a dolly-covered plate.

"It is my ambition," says an artist, "to paint a vision of beauty that is too wonderful to be realized in this life." He is just the man to design the labels on flower seed packets.

Reclamation of 1,096 square miles of land of The Pas, Manitoba, is planned.

Ships of 24 nationalities carried their goods through the Panama Canal last year.

SUNDAY SCHOOL LESSON

JUNE 1

CONTRAST BETWEEN FAITHFULNESS AND SLIGHTFULNESS

Golden Text: "Well done, good and faithful servant: thou hast been faithful over a few things, I will set thee over many things; enter thou into the joy of thy lord." Matthew 25:21.

Lesson: Matthew 25:14-16.

Devotional Reading: Psalm 40:1-8.

Explanations and Comments

The Commission Received, verses 14, 15.—The situation as regards the Kingdom of Heaven, said Jesus in His parable of the Talents, is comparable to that of a man who, about to go to another country, calls together his servants and delivers to them his goods. In the interpretation of the parable, the "man" represents Christ, his "goods," all possessions—life, physical and mental powers, etc.—which are represented as God's property, entrusted to men, His servants, as a loan.

The Commission Carried out, verses 16-18.—The one who received five talents lost no time, but straightaway went and traded with them, and made other five talents. In like manner he that received two talents doubled them. But he that received the one talent went away and hid it in the earth. It was a common practice in the East to bury money for safe-keeping, but his lord wanted increase as well as safety.

The Faithful Ones Rewarded, verses 19-23.—After a long time the lord returned and made a reckoning with his servants. The one who doubled his five talents was recommended in these words: "Well done, good and faithful servant: thou hast been faithful over a few things, I will set thee over many things."

The Slothful One Punished, verses 24-30.—"Lord, I know that thou art a hard man" (austere man, Luke 12:21), said he who had received one talent, "I reasoned where thou didst not sow, and gathering where thou didst not scatter." He uses proverbial expressions for an unscrupulous grasping man. "It is 'all work and no play' in his lord's service, his lord 'takes all the increase and gives the laborer no share in the reward,' he thus says. 'And I was afraid, he continued, 'and went away and hid thy talent in the earth; lo, thou hast thine own.'"

"Thou wicked and slothful servant!" exclaimed his lord. "You called me hard. I call you a churl—A. B. Bruce. 'Out of thine own mouth will I judge thee, Luke 12:22. If thou knewest this, thou oughtest to have put my money to the bankers, and at my coming I should have received more with interest."

The Judgment, verses 31-46.

Planning New Dirigible

British R-102 Will Be Faster and Larger Than Others

Britain shortly will build a third giant dirigible for regular transatlantic service, it became known. The ship will be called the R-102; the others being the R-100 and R-101. It is to be larger, faster and more economical than the others.

The plans for the R-102 were said to be in the hands of the designers.

Reclamation of 1,096 square miles of land of The Pas, Manitoba, is planned.

Ships of 24 nationalities carried their goods through the Panama Canal last year.

Fast Train Service

Has Been Inaugurated By Canadian National Between Toronto and Vancouver

A new fast train service between Toronto, Winnipeg and Vancouver was inaugurated by the Canadian National Railways when The Confederation went into service westbound from Winnipeg to Vancouver on May 18.

Westbound between Winnipeg and Vancouver, The Confederation will operate via Regina, Saskatoon and Edmonton, will be two hours faster than the schedule on which it operated last year, and there will be a further saving of one hour in the time between Toronto and Winnipeg, or a total saving of three and one half hours in the complete journey. Eastbound from Vancouver there will be a saving of two hours and forty-five minutes between Vancouver and Winnipeg, and a saving of forty minutes between Winnipeg and Toronto. In leaving Toronto the westbound Confederation makes a connection with the new fast International Limited from Montreal. This latter train leaves Montreal at 3 p.m. daily, and makes the trip to Toronto in 5:25 hours and is the fastest train in the world over the same distance. By using it and The Confederation, a saving of 13 hours can be made in the time between Montreal and Vancouver, as compared with any existing service over the Canadian National Railways, between those two ports.

The schedule of The Confederation calls for the train to leave Toronto at 9:20 p.m. daily, with an arrival at Winnipeg at 8:15 the second morning. It leaves Winnipeg at 8:45 a.m. Regina at 5:50 p.m., Saskatoon at 10:50 p.m., Edmonton at 8:30 a.m., Jasper at 3:10 p.m., and arrives at Vancouver at 11:00 a.m.

Eastbound the time of departure from Vancouver is 1:35 p.m., Jasper 9:50 a.m., Edmonton 5:05 p.m., Saskatoon 2:00 a.m., Regina 6:55 a.m., and the arrival time at Winnipeg 6:28 p.m. daily. It leaves Winnipeg at 6:20 p.m. and arrives at Toronto at 7:20 a.m. the second morning.

Under the new schedule as compared with that of last year a morning arrival is made at Vancouver, and an afternoon departure. Last year the train did not arrive until the afternoon and left east bound in the morning. The new schedule makes this one of the fastest trans-continental trains on the continent.

French Ministers Interested

That details of the world exhibition and conference to be held in Regina, in 1932, be sent to over 300 prominent residents of France, was requested of officers of the exhibition. A number of those whose names were submitted are deputy ministers of France.

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

**ALLEGED KU KLUX
KLAN AT LACOMBE**

Lacombe furnishes the first alleged Klan outrage in Alberta. Last Thursday night, May 22, Fred Doberstein, a blacksmith, was called by phone to his shop to do an emergent welding job. On reaching his shop, he was seized and thrown into a car and taken about ten miles from Lacombe, where he was stripped and beaten and a coat of tar and feathers applied. His hands were then tied behind his back and he was directed to Blackfalds, and told to take the next train out and never come back or he would be killed. After he was turned loose, Doberstein managed to work his hands loose, and walked into Blackfalds and telephoned to Lacombe for a car, and returned home and reported the case to the police. There were three men in the car which carried Doberstein, and it was followed by another car in which were two men. None wore the Klan regalia; but Doberstein says they told him they were the Ku Klux Klan, and accused him of living with a woman, which he denies. Doberstein claims to have recognized two of the party, and Ralph Mowbray and Walter Butlin have been arrested on charges of assault causing grievous bodily harm. The two men were taken before Magistrate H. G. Scott Monday, and were released under bond of \$5000 each Monday evening to appear for a preliminary hearing next Saturday.

The most common impediment in modern speech is chewing gum.

LODGE DIRECTORY

Blairmore Lodge No. 68, I.O.O.F.
Meets First and Third Tuesdays at 8 p.m. in the Oddfellows' Hall. Officers for the ensuing term: W. Patterson, N.G.; G. Patterson, V.G.; A. Tiberg, Recording Secretary.

Crowview Rebekah Lodge No. 66, I.O.O.F.
Meets First and Third Thursdays at 8 p.m. in the Oddfellows' Hall. Officers for the ensuing term: Sister Simister, N.G.; Sister Barattelli, V.G.; Sister Turner, R.S.; Sister Walker, F.S.; Sister Archer, Treas.

**J. S. KIRKHAM NEW
GOLF PLAYERS**

CRANBROOK, June 2.—The annual tournament of the Crows' Nest Pass Golf Association opened at the Cranbrook Golf and Country Club course here on Sunday, June 1, with the qualifying round commencing at 9 a.m. The weather was ideal for the play and with representatives present from all sections of the Pass three days of outstanding golf is being looked forward to.

In the qualifying round George Auld of Lethbridge won the low gross score and tied for the low net. Lethbridge golfers did well, four entering the championship flight, viz: V. W. Williams, George Auld, Syd Wallis and Marshall. The latter is a former local man but is employed in the Royal Bank, Lethbridge, at present.

The annual meeting held in the Cranbrook Hotel on Sunday evening resulted in J. S. Kirkham of Lethbridge being the unanimous choice as president of the C. N. P. Association for the ensuing year. The invitation from the Lethbridge Golf Club to hold the 1931 tournament in Lethbridge was accepted.

The visitors and local golfers will be entertained at a dance in the Parish Hall tonight at 9 o'clock.

Representatives were present from Lethbridge, Pincher Creek, Blairmore, Coleman, Hillcrest, Fernie, Fort Steele and Kimberley, and the weather and course were excellent.

The new clubhouse, beautifully situated, with a background of firs, is being used for the first time.

The out of town players are: Blairmore—J. B. Wilson, C. Emerson, W. Goddard, Bill Kerr, Miss Sellen, R. Barnes, W. Stevenson.

Kimberley—Mrs. Bride, T. Bride, K. Stewart, N. Burdette, A. Lilly, E. Guille, J. Bell.

Lethbridge—S. R. Howard, V. W. Williams, Syd Wallis, S. N. Peacock, R. E. McGuire, Geo. Auld, D. P. Dawson, Judge Jackson, Wm. Ingram, T. Marshall.

Fernie—Mrs. Lawe, Miss Hughes, E. K. Stewart, N. E. Suddaby.

Pincher Creek—J. P. Alexander.

Fort Steele—W. A. Drayton.

Nelson—W. Blaine.

**FLORAL TRIBUTES TO
LATE EDWARD ENNIS**

Floral tributes to the late Edward Ennis included: Gates Ajar, the Family; Pillow, wife; Wreaths, G. A. Vissac, Red Trail Motow, Mr. and Mrs. D. Rees, Mr. and Mrs. John Davis, Mr. and Mrs. F. Keeping Pace With Progress

Are we keeping pace with progress? Progress is an illusory thing. It may be seen, but so often is not perceived. Like old age or a thief in the night, it creeps upon one unawares and suddenly one awakens to realization that some profound change has taken place and evolution has occurred. We have not been aware of the fact because of its apparent insidiousness—because its movement towards and past us has been gradual. We have seen it unconsciously but it has been too close to us for observation.

Yet despite this seeming slow approach the thing that we call progress moves with great rapidity, but it moves continuously, inexorably a step at a time, but never halting. It is an onward march that never tires, never falters.

The only way to correctly gauge progress is in retrospect. Look back a few years, only a decade or so, and the remarkable progress which civilization makes in the course of a brief span suddenly becomes apparent with startling clarity. Yet we do not see these extraordinary and far reaching changes in the making although they are going on all the time.

Turn over the leaves of the family album and immediately the truth of the assertion stares one in the face. What an extraordinary change in style of dress, in shape of headgear, in fashion of hair dressing in a few years. It appears incredible that one really looked like that 20, 15 or even ten years ago.

But progress does not mark a changing trend in dress alone. It invades every realm of activity within the ken of human experience. In the whole field of things material and in the entire mental and even spiritual arena, a steady and unrelenting advance is being made.

Hard back but twenty years and compare the means of transportation of that time with the swift cabin monoplane and upholstered limousine of today. Contrast the crude telephone of a generation ago with the automatic and the radio of the present time. Appraise the difference between the mired prairie trail of yesterday with the broad gravelled highway along which we roll now.

A little reflection shows that everything with which we come in contact, everything we experience, everything we do has been subject to just as remarkable an evolution as those things to which specific reference has been made. Not only has progress made radical changes in what we wear and how we travel in a few short years, but it has wrought a similar transformation in what we eat and drink, in our amusements, in our work, in our social life, in our worship and even in what we think.

In no sphere of activity, however, has this evolution been more marked in recent years as in the field of daily work, in the realm of business, in city and country. In methods of production, in modes of distribution, in processes of marketing changes have revolutionized and are continuing to revolutionize the daily life of the individual. These changes are so pronounced and so rapid that they are apparent even to the most careless onlooker.

A writer in a popular magazine recently pointed out that such swift changes are being made in the conduct of business and commerce that heads of business houses are finding it increasingly difficult to secure young men competent to engage in commercial life without first being re-trained after they have left college. The almost daily application of new scientific discoveries in the field of business results in the college student being out of date because the course, though designed for the particular vocation he intends to follow, has not kept pace with the changes taking place in the practical arena.

This evolutionary process is going on in the whole industrial field, agriculture included, but as was stated at the outset it is not always so easy to perceive it because of its constancy and its proximity.

For this reason it is perhaps a wise thing, a necessary thing to sometimes pause and look back a little, make a few comparisons with the past, and in the light of these contrasts a clearer perspective may be gained of what is happening from day to day, and perhaps even an inkling may be secured of what may be expected in future.

Only by doing this can we secure the necessary vision to enable us to keep pace with progress.

Idea Did Not Work

Berlin Courts Fined Man For Fighting Noise With Noise

For trying to conquer the noise produced by his neighbor on the floor above by a still more deafening noise, Walter Houser, a lodger in an apartment house of a Berlin suburb, was arraigned in court.

He stretched a violin string across his room immediately beneath the ceiling, and he belabored it several hours daily with a bow while standing on a stepladder. He then screwed several hooks into the ceiling, from which he hung his vacuum cleaner in the inverted position.

The court sentenced the ingenious noise producer to a fine of 200 marks and cost of the repair of the damaged apartment.

How He Saw It

Being told to write a brief essay on "The Mule," young Gregory complied the following: "The mule is a harder bird than the goose or the turkey. It has two legs to walk with, two more to kick with, and wears its wings on the side of its head. It is stubbornly backward about coming forward."

Let's Go Fishing

But not forget to take Minard's along. It will take care of cuts, bruises or mosquito bites.

W. N. U. 1840

Canada's Trade With Bermuda

Large Quantity Of Fruits and Vegetables Imported Last Year

"The rise in exports of fruits and vegetables from Bermuda to Canada last year was from zero to 50,000 cases; one hundred thousand cases is the estimate for this year and three times that amount next year," according to Hon. S. S. Sparling, chairman of the Board of Agriculture, of Bermuda, who was a recent visitor. Mr. Sparling conferred with officials of the Canadian National steamships in regard to the Canada-West Indies service.

"The Canadian budget will be of great benefit to Bermuda," he said, "since it permits the free entry of vegetables into Canada during the winter months."

Spare the children from suffering from worms by using Miller's Worm Powders, a most effective vermifuge with which to combat these insidious foes of the young and helpless. It is an excellent worm destroyer, and when its qualities become known in a household no other will be used. The medicine acts by itself, requiring no purgative to assist it, and so thoroughly that nothing more is desired.

The Latest Convenience

Boxes for the mailing of letters are to be installed on buses running through rural districts in Ireland. They first will be tried on four lines terminating at Belfast, where the boxes will be cleared and the mail handled through the Belfast post office.

Manufacturing On Prairies

Prairie Province manufactures in 1928 had a value of \$340,000,000 according to C. E. Harvey, of Winnipeg, retiring chairman of the prairie division of the Canadian Manufacturers' Association.

Why Anglo-Egyptian Negotiations Failed

Britain Could Not Meet Demand For Immigration Into Sudan

A white paper published disclosed that the breakdown in Anglo-Egyptian negotiations which terminated in London, May 8, was due to the impossibility of finding any formula which would satisfy the Egyptian demand for unrestricted immigration of Egyptian nationals into the Sudan.

The document shows that little difficulty was experienced in negotiations on most points, although there were long discussions regarding the defence of the Suez Canal. At first the Egyptians demanded that the British troops should all be concentrated on the east bank of the canal. They subsequently agreed to the British stipulation for troops to the west of the canal but to agreement could be reached on the Sudan question.

WAS RUN DOWN NOW WELL AGAIN

Takes Pleasure In Recommending Dr. Williams' Pink Pills

To the woman in the home illness is almost a calamity. Many a woman keeps on by her household duties when she is feeling ready to drop. Her head aches, she is easily tired, is depressed and nervous and has no appetite. In a word she is anemic and badly needs help—the health-giving pills that only Dr. Williams' Pink Pills can give her. These pills make rich, red blood which brings new strength and energy to the system. When suffering from anemia, Mrs. Paul Raul, Coin du Blanc, Quebec, says: "I was badly run down, poorly, and awake as tired as when I went to bed. My appetite was poor and I felt miserable. I took six boxes of Dr. Williams' Pink Pills and they completely renewed my health."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

New Flags For Old

Fifteen Nations Have Made Change Since World War

Fifteen nations, containing more than one-third of the world's population, are living under new flags since the World War. In addition a new flag of red, white and green is now flying in India, with its 300,000,000 people, where Gandhi's revolutionists have proclaimed independence of Great Britain. In fact since the change of colors by Russia, Germany, China and other great political divisions the probability is that not more than four flags of major nations can be universally identified today.

Attacked By Asthma. The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case the relief afforded by Dr. J. D. Kellogg's Asthma Remedy seems nothing less than miraculous. It helps in quick and apparent and soon the asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

Engineer Will Survey Mines

Government Official To Visit All Important Centres During Season

Hon. Charles Stewart, Minister of the Interior, has announced that Supervisory Mining Engineer C. C. Ross was leaving for Fort Smith. Mr. Ross will visit all the important centres of mining activity throughout the season. He will organize the work of the office and the field parties and endeavor to ascertain the needs of the prospectors and companies. Mr. Ross will then be in a position to advise the Minister of the Interior fully on all that appertains to the future of the industry.

Plants Large Forest Area

A forest in the embryo—250 acres of it—has been planted by the Saskatchewan forestry service, in the Prince Albert region. H. E. Elster, forestry engineer, stated that the transplanting of 2,000,000 nursery seedlings and stock is the largest such programme in the province's history. Most of the seedlings are jack and white pine.

John D. Rockefeller has spent more than \$750,000,000 in benefactions during his long life.

London's statue to Marshall Foch is to be unveiled in May.

LUMBAGO?

A pain in the lower part of your back can torture you. But not for long, if you know about Aspirin. These harmless, pleasant tablets take away the misery of lumbago, rheumatism, neuralgia, headaches, toothaches, and systemic pains of women. Relief comes promptly; is complete. Genuine Aspirin cannot depress the heart. Look for the Bayer cross, thus:

Artistic Booklet Issued By C.P.R.

Great Help To Traveller Planning An Overseas Holiday

A pleasing series of glimpses of "Those Magic Isles," embracing England, Wales, Scotland and Ireland, is contained in an artistic booklet under that title issued by the London offices of the Canadian Pacific Railway.

Replete with a wealth of artistic photographic illustrations, the publication forms one of the most complete guides to the Old Country which has appeared in recent times. All aspects of the life of each country are dealt with, both in picture and story, from the teeming hub of Empire itself along the busy lanes and hedgerows of England to the rugged shores of Wales and the mighty moors of Scotland, Ireland, both the Free States and the North, is also given considerable space, while real scenes and graphic descriptions of popular resorts are not wanting.

To the traveller contemplating a holiday overseas it is an alluring foretaste of what is to come; to the returned voyager, it is a pleasing souvenir and an inducement to repeat the journey.

The "St. Lawrence Water Boulevard to Europe" is used yearly by hundreds of thousands of travellers in Canadian Pacific Steamships, well worthy of the "Empress" and "Duchess" nomenclature.

Breaks Previous Record

Aerial Photographic Expert "Shoots" Mount Rainier 270 Miles Away

Capt. A. W. Stevens, Air Corps photographic expert, has broken his own record for long-distance aerial photography, "shooting" Mt. Rainier from a distance of 270 miles.

The feat adds almost 50 miles to the record established by Captain Stevens last year, when his camera registered objects 227 miles distant. The new photograph was made while in flight 20,000 feet above Crater Lake, in Oregon, and gives a clear picture of various mountain ranges stretching northward to the lofty peak of Mt. Rainier, 14,000 feet above the sea.

When the picture was taken the thermometer on the plane, which was piloted by Lieut. John Corkille, stood at 20 below zero. A liquid oxygen supply was carried.

"Shooting at Mt. Rainier from a distance greater than that between New York City and Washington is much like shooting at the moon with the difference that you can see the moon," says Captain Stevens. "The principal task is to aim the camera in the general direction you believe your objective to be, map the trigger and hope for luck."

Douglas' Egyptian Liniment relieves toothaches and neuralgia. Invaluable in cases of cramp, sore throat and quinsy. Keep a bottle handy.

The Practical Way

They have a practical way of doing things in the west, says the Toronto Globe. For instance, the Saskatchewan Department of Agriculture has bought a farm "absolutely polluted with weeds," and will proceed to make it blossom as the rose. A demonstration of this kind will be worth a thousand lectures on the best way to get rid of noxious growths on the farm.

Wise mothers who know the virtues of Mother Graves' Worm Expeller always have it at hand, because it proves its value.

Increase In Grape Growing

The development in grape growing by J. W. Hughes, of Kelowna, furnishes some interesting data. In 1927, he had 800 baskets, in 1928, 2,500 baskets, in 1929, 30,000, and this year he expects 40,000. A winery is offering \$100 a ton for "concord."

France expects much larger crop yields this year than last.

Minard's for Felling Hair.

Investments Along the National Show Increase

Over Seventy-Four Million Involved In Establishing Industrial Plants

New industrial plants established along the line of the Canadian National Railways, in 1928, involved a total capital investment by the industries of \$74,106,10, according to the annual report of William Phillips, manager of the Industrial Department of the system. This was an increase of \$66,300 over the previous year, when the expenditure was \$73,409,600. Additions to plants already existing represent an investment of \$33,361,000, an increase of \$8,792,200 over 1928. On the Grand Trunk Western lines of the system, the capital investment by industry for new plants and branches totalled \$11,729,000. While this was a decrease of \$7,500,400, there was an increase of \$2,227,000 in additions to plants, the total being \$11,563,000.

Canadian development from Atlantic to Pacific, Mr. Phillips indicates, was in many fields, involving such industries as: newplant, cold storage, warehousing, grain elevators, silk mills, canning plants, foundries, distilleries, automobile plants, lumbering and mining industries. The most outstanding developments in Western Canada were in mining in Manitoba, and in cold storage plants in British Columbia. The Hudson Bay Mining and Smelting Company, and the Sherritt-Gordon Mines, Ltd., at Flin Flon, and Sheridon, expended \$10,000,000, while two cold storage plants, costing more than \$3,000,000, were established at New Westminster and Victoria, B.C. New elevators in the west represented an investment of \$1,345,600 and new oil warehouses, \$482,000.

Lesson Never Learned

Reckless Drivers Take Chances In Spite Of Daily Accidents

Does it pay to drive recklessly on the highway? The answer is simple. Nevertheless we need to be impressed now and again with the foolishness of throwing caution to the winds and performing menacing antics such as cutting in on the car ahead, ignoring danger signals and so on.

Some time ago a lady motorist driving on the Hamilton-St. Catharines highway, in Ontario, committed one of those rash acts. She cut in on another car and caused a heap of trouble. As a result of her poor judgment or whatever it was, three cars were damaged, four persons injured and three lawsuits followed, culminating in a judgment of \$4,600 to be paid to seven persons in adjustments.

What a risk and price to pay for gaining a few car lengths! Was her time as precious as all that?

Minard's for Insect Bites.

Maps For Many Purposes

The Topographical Survey Department of the Interior, is an organization of the Dominion Government which is engaged in making maps for many purposes. So far as practicable standardized sheets are used, the scale varying according to the information available and the purpose for which the map is intended.

Cut Down Food Waste

—by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

HUNTER-MARTIN & CO., REGINA, SASK.

BRITISH FIRMS PLAN TO MAKE CARS IN CANADA

London, England.—British automobile manufacturers are preparing to invade the Canadian market. They propose the establishment of assembling and manufacturing plants backed by aggressive salesmanship. It was learned at the Chambers of Commerce Congress.

Canadian delegates submitted three principal points:

(1) That Britain should imitate the example of the United States by providing, as far as possible, for manufacturing plants in Canada and that the most effective way of meeting foreign competition in Canada was to take their courage in their hands and put up manufacturing plants in Canada.

(2) The necessity of having in Canada centres for assembling where organizations could be developed for the provision of spare parts.

(3) The necessity of more aggressive salesmanship. Reporting to Congress, P. J. Hannon, the chairman of bilateral discussions, said he had received from British motor manufacturers a letter in which they were prepared by co-ordination and co-operation to make a really concentrated attack upon Canada through more highly organized methods of advertisement and publicity.

They were also preparing to furnish service and spare parts for their motors so that the Canadian owner would have no more trouble with his British car, in effecting replacements and repairs, than with the American product.

Calling Conference On Unemployment

Mayors of Western Cities Will Meet in Vancouver

Vancouver, B.C.—To organize a western Canadian movement toward solution of the unemployment problem, Mayor W. H. Malkin is arranging for a conference of mayors of western cities here about June 9.

On that date Mayor R. H. Webb, of Winnipeg, will arrive here with a delegation of prominent business men to welcome the French line vessel, "Winnipeg," at this port. Mayor Malkin telegraphed him suggesting that other western mayors might be asked to come to Vancouver then for a conference on unemployment.

Will Continue Coal Rates

Extension Granted On Alberta Coal For Another Year

Drumheller, Alberta.—Eastern freight rate on Alberta coal, reduced a few years ago to aid the marketing of western coal in the east, will be continued for another year.

A wire to this effect has been received here from E. J. Garland, U.F.A., M.P. for Bow River, who stated that after making insistent demands for this extension the government agreed to have an order-in-council passed forthwith.

Prince May Unveil Statue

London, England.—The London statue of Marshal Foch is about ready, and the Prince of Wales has consented, should circumstances permit, to unveil it. It is officially stated that the memorial will be erected on the triangular piece of ground near Victoria station, facing the Hotel Belgrave. The French sculptor, Mailard, will carry out the work. The statue will be an exact replica of the statue which stands at Cassel, and which, modelled from life, had the approval of the Marshal.

Want Action On Survey

Ottawa, Ont.—It is highly advisable that both the Canadian National Railways and the Canadian Pacific Railway undertake a joint survey of an outlet to the Pacific coast. If that is not done within a year then the present administration, if returned to power, will take steps to have such work begun, declared the prime minister, Mackenzie King, in the House of Commons recently.

Extending Air Service

Tokyo.—In order to offset curtailment of Japan's maritime fighting units resulting from the agreement reached at London, England, the navy ministry here is planning to extend the nation's air services on a vast scale.

The largest American-made water wheel, weighing 150 tons, is being built at Newport News.

W. N. U. 1949

Over Seven Million Paid In Pensions

Dominion Government Contributed Nearly Four Million To Pensions

Ottawa, Ont.—The Dominion Government has contributed a total of \$3,771,549.68 to the province in aid of old age pensions, up to the end of the last fiscal year, according to a return tabled in the House of Commons. The disbursements to the 42,553 pensioners throughout Canada amounted to \$7,542,579.12.

Following is the distribution by provinces: Alberta, 2,017 pensioners, \$267,420.04 total paid; British Columbia, 4,576 pensioners, \$2,049,674.52 total paid; Manitoba, 5,104 pensioners, \$1,849,295.67 total paid; Ontario, 28,370 pensioners, \$2,225,088.32 total paid; Saskatchewan, 4,432 pensioners, \$1,139,942.82 total paid; North-West Territories, 4 pensioners, \$567 total paid.

The apparent disproportion as between pensioners and total payments is due to the shorter period in which the act has been operating in the various provinces. British Columbia was the first to adopt the act, Ontario the last. Consequently the disbursements to British Columbia have been in progress for a much longer time than to Ontario.

Fire In Alberta College

Main Building and Boys' Dormitory Were Destroyed

Lacombe, Alberta.—Fire, which broke out in the Canadian Junior College here, destroyed the main building and boys' dormitory. The loss is estimated at \$100,000.

Fifty boys, who with some 200 others escaped in their night clothes, received burns and were taken to the Lacombe hospital.

The college is the only Adventist institution of the kind in western Canada. There were three buildings on the site, the other being the girls' dormitory, which was saved. Erection of the structure was carried out some 20 years ago.

Canadian Nurse Killed In Italy

Car Left Road After Collision and Plunged Down Ravine

Florence, Italy.—Miss Helen Gee, 22, a United States girl, whose home is in Denver, Colo., and Miss Ruth Rees, 25, a Canadian nurse, employed in John Hopkins Hospital, Baltimore, Md., were killed in an automobile accident near Roma, 48 miles from here.

The automobile in which the two women were travelling collided with another automobile, left the road and plunged 250 feet down a ravine. The car was loaded with suit cases which showed that they were touring Italy.

Wilkins May Accompany

Dominion Expedition

Famous Explorer Has Permission To Go To Arctic

Ottawa.—Sir Robert Wilkins may accompany the 1930 Arctic expedition, sent out annually by the Dominion Department of Interior, through its northwest territories and Yukon branch. It was reported that the famed Australian explorer and scientist had the permission of the department to join the expedition, which will travel north on the S.S. Beothic, which leaves North Sydney, Nova Scotia, towards the end of July.

Mounties Leave For England

To Compete In International Horse Show At Olympia

Ottawa.—A detachment of Royal Mounted Police to compete in the forthcoming International Horse Show at Olympia, London, sailed from Montreal on May 29. Major T. Dana, senior ranking inspector of Canada's celebrated force, is in command. The riders and their mounts have been put through a strenuous period of training in Regina and Ottawa.

Sound "Last Post" For Aviator

Ottawa.—"Last Post" was sounded and musketry rattled with the "present arms" of the firing party as a train pulled out of Union Station bearing the remains of Flight-Sergeant Robert W. Pike of Vancouver. The body of the young flyer, killed in an aeroplane crash here, May 27, will find a last resting place in his native city in British Columbia.

Plans Westward Atlantic Flight

Dublin, Ireland.—The first attempted westward crossing of the Atlantic Ocean by plane this season will be by Capt. Charles E. Kingsford-Smith, pilot of the Southern Cross from Australia to California, flight, near the end of June, he said here.

Smelter For Far North

To Operate In Copper Mines On Great Slave Lake

Edmonton.—Within another 18 months a huge oil-burning smelter will be going full blast on the south-east corner of Great Slave Lake, turning the deposits of rich copper ore of this region into ingots to be transported to the markets of the world through Edmonton, according to plans of the Atlas Exploration Company, the Consolidated Smelters and Ventures, Limited, generally recognized as the three most powerful mineral development companies in Canada.

Gift Of Conservative Members

Huge Loving Cup Presented To Hon. R. B. Bennett

Ottawa.—With members and Senators thronged in the party caucus room of the House of Commons, Conservatives presented their leader—Hon. R. B. Bennett—with a huge loving cup. Taken entirely by surprise and visibly moved as the two oldest of his supporters in point of years, R. S. White and W. A. Black, made the presentation, the Opposition chief-spoke feelingly in expressing his thanks.

AMOUNTS PAID ON SUBSIDIES ARE ANNOUNCED

Ottawa, Ont.—Further information of the amount of money paid by the Dominion Government to the provinces was given to the House of Commons by Hon. C. A. Dunning, minister of finance, in reply to questions from F. G. Sanderson (Liberal, Fort St. John). It sets out the amounts which will be paid to the western provinces by way of subsidies after the agreement with the prairie provinces for the transfer of the natural resources and the agreement with British Columbia for the transfer of the railway belt and the Peace River block shall have come into effect. The payments will vary according to the population of the provinces concerned.

The annual subsidy to Saskatchewan on the basis of the present population of 850,000 will be \$2,063,285. When the population reaches 1,000,000 the subsidy will have increased to \$2,710,375.

The subsidy to Alberta at present will be \$1,670,435. When the population reaches 800,000, it will be \$2,015,375, and when it reaches 1,200,000, it will be \$2,710,375.

On the basis of its present population, Manitoba will receive \$1,662,084.18 annually. When the population reaches 800,000, this will have increased to \$1,991,584.18, and when the population reaches 1,200,000 there will have been a further increase of \$2,686,584.18. In the intervening years the total payment will vary according to population.

British Columbia on its present population will receive an annual grant of \$738,816.66. This per capita grant will increase as the population increases. The grant for government and legislation will also increase from \$190,000 to \$220,000 when the population exceeds 800,000, and to \$240,000 when the population exceeds 1,500,000.

Saves Babies In China

Vancouver cows have become the foster mothers of children in China and Japan. Fresh certified milk is now being carried from Vancouver to the furthest ends of the earth, since New York, Montreal, Australia, South America and London, England, have already been supplied from the British Columbia port. Scientific refrigeration on the big white liners of the Canadian Pacific fleet flying between Vancouver and the Orient, is half the secret of the success of this long distance delivery of fresh milk; the other half is the quality of the product from the Brookbank Labora-

tor certified milk farm. Carrying milk, as fresh as when it came from the cow, from Vancouver to Shanghai, a distance of 5,419 miles, is a big job and even the speedy "Empress of Canada" took 14 days to turn the trick, counting in stops at Honolulu, Yokohama and Kobe en route.

W. F. Jones, manager and proprietor of the Brookbank Laboratory, has a theory that the cow which feeds the child has a right to the same treatment and attention as the child's mother, and above lay-out will show something of the careful grooming and spotless cleanliness of babies and animals.

SPEAKER OF SENATE

Sensor A. C. Hardy, Brockville, Ont., who has been selected as Speaker of the Senate. The selection will be immediately confirmed by the government.

Veterans Can Renew Pensions

New Pension Act Contains Specific Provision For Commutations

Ottawa.—There is a specific provision in the new Pension Act in regard to veterans who were entitled to pensions but who committed their rights for a cash sum of money.

The door to renewed pensions is now opened to these veterans. The act provides for them in this way. At the time of commutation they were conceded to be entitled to a certain monthly pension. It will be presumed that instead of making a cash settlement, they had been drawing this pension continuously. If the passing years, calculated on a monthly basis, would have equalled the amount of cash they are once more eligible for pension provided they can prove that they are suffering from war disability. They will be entitled, once the full cash amount has been taken up by the passage of time, to a pension based upon their present disability.

Flight Again Postponed

R-100 Not Coming To Canada For Some Weeks Yet

London, England.—Projected flight of the British dirigible R-100 to Canada has been postponed until the end of June or the beginning of July.

Frederick Montague, under-secretary of state for air, informed the House of Commons of the postponement, stating that repairs were required by the huge ship. Repair material will have to be manufactured specially.

While on a recent 24-hour test flight over England, the R-100 had a section of covering torn from one of her fins and later it was found that she had suffered other minor damages.

It had been expected that the R-100 would make the flight to Canada about the beginning of June.

Some War Books Criticized

Edinburgh, Scotland.—Some modern war books were described as "ruthless" and inexactable exploitation of those who lost kin in the war, by the Rev. John Calder, Campbellton, at the Assembly of the Free Church of Scotland. "These books," said Dr. Calder, "constitute a libel on the army and a calumny on the heroic dead."

Passes House Of Commons

Contributions From Companies For Campaign Purposes Allowed By Election Act

Ottawa.—The new Dominion Election Act was finally passed by the House of Commons after an amendment by J. S. Woodsworth (Labor, Winnipeg North Centre), had been accepted.

The amendment repeals a section prohibiting contributions from companies for campaign purposes. Mr. Woodsworth claimed that this provision worked a hardship on labor unions desirous of making contributions while large corporations had been able to contribute despite the section. The effect of the passing of the amendment is interpreted to mean that contributions to campaign funds from unincorporated companies and organizations will be subject to no restriction.

Senate Approves Grain Act

Given Three Readings and Passed Within Few Minutes

Ottawa, Ont.—Approval was given by the Senate to the consolidated draft of the Canada Grain Act which was prepared by a special committee of the House of Commons, during the present session. Within the space of a few minutes, the bill was introduced by Hon. Raoul Dandurand, government leader, given three readings and passed.

Sensor A. B. Gillis introduced against the bill being introduced so late in the session, making a careful study of it practically impossible. In this practice were followed all the time, the Senate would be "nothing but a rubber stamp" for the Commons, he said.

Operating On New Time

Prarie Air Mail Making Use Of Additional Daylight

Winnipeg.—The new schedule for the Western Canada Prairie Air Mail service went into effect May 27, when the plane carrying the mail for western points left Stevenson airport at 7:30.

A careful survey had shown the greatest difficulty in operating the service, due to meteorological conditions, to exist on the leg of the route between Winnipeg and Regina, and particularly at the Winnipeg end, Mr. Goss said.

Making use of the additional hour and a half of daylight is expected to better the percentage of effective performance.

GRAIN MOVING STEADILY FROM HEAD OF LAKES

Montreal, Que.—The Montreal Star publishes the following despatch from Fort William, Ont.

"Commenting on advice from Montreal: that a big movement of export grain is an immediate prospect, E. A. Ursell, chief statistician of the Board of Grain Commissioners, said the announcement was not unexpected.

"He said European buyers were commencing to take Canadian grain, and he looked for a brisk movement in June and July.

"The situation has greatly improved during the last two weeks, he said. He expected shipments from Port Arthur and Fort William to run from 15,000,000 to 20,000,000 a month, which would mean a carry-over considerably less than last year.

Fort William, Ont.—Increased shipments from the Head of the Lakes during the past few days and a great improvement in export conditions on the Atlantic seaboard are noted by E. A. Ursell, statistician to the Board of Grain Commissioners, commenting on reports from Montreal that a big movement of export grain is an immediate prospect.

Mr. Ursell points out that liner tonnage has been taken up with wheat, and five tramp vessels are now at Montreal to take on wheat for Mediterranean ports, which of itself, he says, is a very satisfactory condition, showing that there is a demand for wheat in large quantities among the continental European buyers.

"It is reported that 5,000,000 bushels of wheat were exported during the week of May 19 to 24, and 4,000,000 the week before.

"Should the export movement continue for the next two months at the rate of the statistician adds, 'the carry-over' of wheat in Canadian channels is not likely to be more than 80,000,000 bushels, as was indicated in a report issued four months ago by the statistician's office of the Board of Grain Commissioners."

CONFERENCE ON UNEMPLOYMENT WILL BE HELD

Ottawa, Ont.—It is proposed to make the interprovincial conference on unemployment which may be held this year as representative as possible, Premier King stated in the House of Commons. The government had placed an appropriation of \$10,000 in the supplementary estimates to enable the conference to be held. Representatives of labor, of the transportation companies, and other large employers would be invited.

The Premier made his statement in reply to a question from A. A. Heaps (Labor, Winnipeg North), as to whether the proposed conference would be held. In preparing for the conference, Mr. King stated, the government had taken into consideration the considerable seasonable unemployment which existed in Canada.

It was thought the conference could devise arrangements for providing continuing employment throughout the winter months for a larger number of men.

The conference would consider all matters relating to employment and unemployment. This was the Premier's reply to a question from Mr. Heaps as to whether the matter of uniform legislation respecting the eight-hour day would be taken up.

Winnipeg, Man.—Mayor Ralph H. Webb, representing Winnipeg at a special conference on unemployment at Vancouver on June 9, he announced. Mayors from other Western cities will also be in attendance, he said. He had received advices from Saskatoon, Regina, Edmonton and Calgary. Mayors of these cities will participate in the conference.

"As far as I can see," Mayor Webb declared, "this unemployment situation is getting worse and there doesn't seem to be any immediate source of relief."

Relieved Of Indebtedness

Soldier Settlers To Have Thirty Per Cent. Canceled

Ottawa, Ont.—The government bill to relieve all soldier settlers of 30 per cent of their indebtedness to the country, in connection with unemployment, without amendment. The bill was drafted by a special committee of the House of Commons during the present session.

Under the 12,000 soldier settlers in Canada will be relieved of capital indebtedness amounting to about \$11,000,000. The total amount owing the government under the scheme was set at \$38,000,000 and Hon. Charles Ross, under-secretary of department, said the administration of the act, said he was reasonably satisfied payment would be made of the remaining \$27,000,000.

Young Aviatix Killed

Motor Stalls and Girl Fell Two Thousand Feet

Colorado Springs, Colo.—One of America's youngest aviatixes, 17-year-old Margaret Ferguson, fell 2,000 feet and was killed, while attempting desperately to start her stalled motor.

"She Ferguson obtained her government pilot license only a few days ago. She was making a solo flight before attending her high school class when apparently motor trouble occurred. The motor was heard to restart once during the 2,000 foot plunge, but sputtered and died again.

Forced Natives To Work

Windhoek, Southwest Africa.

Three young Europeans charged with kidnapping natives and forcing them to work on their plantations under pain of the lash, were found guilty of assault and fined five pounds (about \$25) each. The sentences were light in view of the youth of the three men.

Looking For Settlement Land

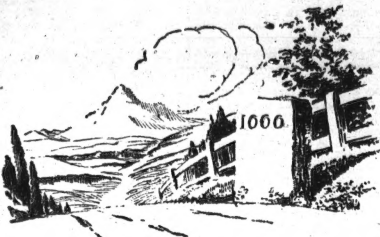

Montreal.—In search of new land for settlement a group of French-Canadians of the eastern provinces and of the United States will leave for the west toward the end of June from Montreal and Quebec by the Canadian National Railway.

Administration Is Costly

Ottawa.—Expenditures for the administration of the opium and narcotic drug act have increased since 1926 from \$27,452.88 to \$62,110.83 in 1930, according to a return tabled in the House of Commons here.

Chief Scout Re-Elected

Ottawa.—His Excellency the Governor-General was re-elected as chief scout for Canada at the annual meeting of the Canadian General Council of the Boy Scouts Association.

MILESTONES

THE first milestone on the Road to Success is \$1,000 saved—after that the way is easy, for opportunities strew the path of the man with money in the Bank.
